

1. Collect objects, small enough to fit in a jar.
2. Place them on the table and take a photo to use as a guide.

3. Put the objects in a jar, fill it with 1/3 dry, coloured rice and close it.

4. Choose an object and say 'I spy something beginning with ...' (say the first sound of the chosen object).
5. The child has to shake the jar to find the object and cross it off from the photo picture guide.
